9	Specific objective	Use in all specific objectives, whenever relevant
10	Definition and concepts	The indicator counts the organisations cooperating formally in supported projects. The organisations counted in this indicator are the legal entities including project partners and associated organizations, as mentioned in the financing agreement of the application. Organisations cooperating formally in small projects (for instance under a Small Project Fund) are also counted.
11	Data collection	MA monitoring system
12	Time measurement achieved	Upon project finalisation
13	Aggregation issues	At programme level, double counting should be avoided at the level of project partners and associated organizations.
14	Reporting	Rule 1: Reporting by specific objective Forecast for selected projects and achieved values, both cumulative to date (CPR Annex VII, Table 3).

10	Definition and concepts	<p>The indicator counts all enterprises that receive monetary or in-kind support from ERDF and Cohesion Fund.</p> <p>The enterprise is the smallest combination of legal units that is an organisational unit producing goods and services, which benefits from a certain degree of autonomy in decision making, especially for the allocation of its current resources. An enterprise carries out one or more activities at one or more locations. An enterprise may be a sole legal unit. Legal units include legal persons whose existence is recognised by law independently of the individuals or institutions which may own them or are members of them, such as general partnerships, private limited partnerships, limited liability companies, incorporated companies etc.</p> <p>Legal units as well include natural persons who are engaged in an economic activity in their own right, such as the owner and operator of a shop or a garage, a lawyer or a self-employed handicrafts-person. (ESTAT in references, based on Council Regulation (EEC) No. 696/93, Section III A of 15.03.1993)</p> <p>For the purpose of this indicator, enterprises are profit-oriented organisations that produce goods and services to satisfy market needs. For Policy Objective 4 (Social Europe closer to its citizens), the indicator includes also social enterprises defined by the Commission (DGGROW) as follows: “a social enterprise is an operator in the social economy whose main objective is to have a social impact rather than make a profit for their owners or shareholders. It operates by providing goods and services for the market in an entrepreneurial and innovative fashion and uses its profits primarily to achieve social objectives.”</p> <p>Classification of enterprises:</p> <p><b>Micro enterprise</b> (&lt;= 10 employees and annual turnover ≤ EUR 2 million, or balance sheet ≤ EUR 2 million);</p> <p><b>Small enterprise</b> (10-49 employees and annual turnover &gt;EUR 2 million -</p>

8	Policy objective	Use in all policy objectives, whenever relevant
9	Specific objective	Use in all specific objectives, whenever relevant
10	Definition and concepts	<p>The indicator counts the pilot actions developed jointly and implemented by supported projects. The scope of a jointly developed pilot action could be to test procedures, new instruments, tools, experimentation or the transfer of practices. In order to be counted by this indicator,</p> <ul style="list-style-type: none"> <li>- the pilot action needs not only to be developed, but also implemented within the project</li> <li>and</li> <li>- the implementation of the pilot action should be finalised by the end of the project.</li> </ul> <p>Jointly developed pilot action implies the involvement of organizations from at least two participating countries (for programmes falling under strands A, B, C as defined in the Interreg Regulation) in its implementation or is implemented in the scope of programmes falling under strands D or E as defined in the Interreg Regulation.</p>
11	Data collection	MA monitoring system
12	Time measurement achieved	Upon project finalisation
13	Aggregation issues	Should a project foresee over the course of its implementation both the jointly development of strategies or action plans and their implementation through jointly developed pilot actions or jointly developed solutions, indicators RCO84 may be used together with RCO83 and/or RCO116 be used.

10	Definition and concepts	<p>The indicator counts the number of participations in joint actions across borders implemented in the supported projects. Joint actions across borders could include, for instance, exchange activities or exchange visits organized with partners across borders. Participations (i.e. number of persons attending a joint action across borders - e.g. citizens, volunteers, students, pupils, public officials, etc.) are counted for each joint action organised on the basis of attendance lists or other relevant means of quantification.</p> <p>A joint action is considered as the action organised with the involvement of organizations from at least two participating countries (for programmes falling under strands A, B, C as defined in the Interreg Regulation) or is developed in the scope of programmes falling under strands D or E as defined in the Interreg Regulation.</p> <p>Participations in public events organized in supported projects should not be counted in this indicator.</p>

17	Notes	<p>Participations in public events should not be counted in RCO81. The number of public events organized in supported projects should be reported by RCO115.</p> <p>When reporting on RCO81, the participations in internal project meetings of the partners should not be counted. Values reported under this indicator shall not be reported under RCO82 or RCO85. Participations in joint training schemes for which the training organisers intend to record the confirmed completions / intend to issue certificates of completion should not be counted in RCO81, but in RCO85.</p> <p>In order to avoid double counting of participations, the joint actions relevant for this indicator (i.e. RCO81) should not have the main topics linked to gender equality, equal opportunities and social exclusion, as the participations in these events are counted by RCO82.</p> <p>In terms of links with common result indicators, RCO81 may be used together with RCR85.</p>

10	Definition and concepts	<p>The indicator counts the number of events across border which were jointly organised by the partners in supported projects or by interregional programmes, and not the number of participations in public events. A public event across borders is understood as a joint action which has been advertised through relevant means, to the general public of the area covered by the programme.</p> <p>A joint action is considered as the action organised with the involvement of organizations from at least two participating countries (for programmes falling under strands A, B, C as defined in the Interreg Regulation) or is developed in the scope of programmes falling under strands D or E as defined in the Interreg Regulation.</p> <p>A public event across borders should have participants from at least two countries of the programme area.</p>

8	Policy objective	Use in all policy objectives, whenever relevant
9	Specific objective	Use in all specific objectives, whenever relevant
10	Definition and concepts	The indicator counts the organisations cooperating across borders after the completion of the supported projects. The organisations are legal entities involved in project implementation, counted within RCO87. The cooperation concept should be interpreted as having a statement that the entities have a formal agreement to continue cooperation, after the end of the supported project. The cooperation agreements may be established during the implementation of the project or within one year after the project completion. The sustained cooperation does not have to cover the same topic as addressed by the completed project.

10	Definition and concepts	The indicator counts the number of solutions, other than legal or administrative solutions, that are developed by supported projects and are taken up or upscaled during the implementation of the project or within one year after project completion. The organisation adopting the solutions developed by the project may or may not be a participant in the project. The uptake / up-scaling should be documented by the adopting organisations in, for instance, strategies, action plans etc.

10	Definition and concepts	The indicator counts the number of participants completing the joint trainings schemes organised by supported projects. Completion should be documented by the training organisers either through a record of the confirmed completions or by issuing certificates of completion of the training. The certificates of completion do not necessarily require a previous national certification process of the issuing organisation.
11	Data collection	MA monitoring system
12	Time measurement achieved	At project completion
13	Aggregation issues	Double counting of participants in more than one training schemes organised by the same project should be excluded.

10	Definition and concepts	<p>Number of jobs expressed in average annual full time equivalents (FTEs) created in line of activity supported by the project. The new positions need to be filled, and they can be full time, part time or recurring seasonally. Vacant positions are not counted. Moreover, the newly created positions are expected to be retained for more than one year after project completion. The indicator is calculated as the difference between the annual FTEs filled before the project starts and one year after the project completion in the line of activity supported.</p> <p>Annual FTE is defined as the ratio of working hours effectively worked during a calendar year divided by the total number of hours conventionally worked in the same period by an individual or a group. By convention a person cannot perform more than one FTE on an annual basis. The number of hours conventionally worked is determined on the basis of normative/ statutory working hours according to the national legislation.</p> <p>A full time person will be identified with reference to their employment status and the type of contract (full time or part time).</p> <p>This indicator should not be used to cover research jobs, which should be reported under RCR102.</p>
